# INTRODUCTORY.

THIS is the 55th number of the TROY DIRECTORY, and the 27th number issued by the present publishers. In presenting it to our patrons we thankfully acknowledge the aid afforded by them to the enterprise, and also the promptness and cheerfulness with which information has been given our canvassers by the citizens generally.

We believe that the work of collecting the information was never more thoroughly done than it has been this year, and as proof thereof, we ask attention to the following comparison of the number of names contained in the Directories of 1870, 1875 and 1880, with the population of Troy and Lansingburgh for those years, according to the official census:

| | 1870 | 1875 | 1880 | 1883 |
|---|---|---|---|---|
| Population of Troy proper and Lansingburgh..... | 51,337 | 55,758 | 64,511 | *69,465 |
| Number of names in Troy and Lansingburgh Directory..... | 16,807 | 18,352 | 21,786 | 25,737 |
| Number of names in Directory of each 1,000 of population.. | 327 | 329 | 337 | **370** |

* Assuming the rate of increase in population to be the same as that from 1870 to 1880. If, however, the ratio of the number of names in the Directory to the population is no greater than in 1880, viz., 337 to 1,000, the population of Troy and Lansingburgh would be 76,370

Our system of work is acknowledged by all Directory publishers to be the most perfect, though very expensive, that experience in the business has devised. No one has been employed in any department of the work who has not been proved fitted therefor by previous experience. The labor has all been carefully performed and supervised. We therefore trust that the number of possible errors contained in this volume has been reduced to a minimum. We have also aimed, notwithstanding the largely increased amount of labor to be performed, to issue the Directory promptly, and we accordingly take pleasure in being able to present it at the usual time. This could only be accomplished by the employment of a larger number of canvassers and compilers than in any previous year.

If our patrons will bear in mind that the names in the Directory are arranged alphabetically, according to the manner in which the names are spelled, and that many names pronounced similarly are spelled very differently, they will in many cases, by a little search, find the looked-for name properly recorded, but in a different place from that first examined. Before concluding that a name has been omitted, the various ways of spelling names having the same or similar pronunciation should be considered. For example, in looking for the name of a person supposed to be Mayer, if it is not found spelled in that manner, search should be made among the names spelled Mahar, Maher, Meher, Meagher, Maier, Meyer, Mairs, and perhaps even then it will be found correctly spelled Myers or O'Mara. These names, similar in sound, are all to be found in different places in this Directory.

For several years past, upon the publication of each number, we have decided that the price of the Directory must be advanced the following year. But as the time came for each successive issue, we have yielded to the seeming wishes of our patrons and friends, and postponed the advance, hoping that the increase in patronage would keep pace with the steady annual increase in labor and expense. Since the present price was established the population of the territory represented by the Directory has increased *twenty-five* per cent; the number of names contained in the Directory has increased *forty* per cent, and the amount of labor and expense involved in a still larger ratio. No Directory so large as this, or representing so large a territory and population, is now published in the United States at so low a price. The population of Troy, Lansingburgh, Cohoes, West Troy and Green Island, according to the census of 1880, was in round numbers, 100,000. We give below the prices of Directories of other cities having about the same or a less population, according to the same census, from which it will be seen that the only Directories sold at the same price are those of cities containing a less population, and consequently their Directories a less number of names, while in many smaller cities the prices vary from *three* to *five* dollars. The following Directories are sold at $5 per copy: Detroit, Mich., with a population of 116,342; Milwaukee, Wis., 115,578; Indianapolis, Ind., 75,074; Kansas City, Mo., 55,813; Charleston, S. C., 49,999; Denver, Col., 35,630; Memphis, Tenn., 33,593; Savannah, Ga., 30,681. Directories sold for $4: Richmond, Va., 63,803; St. Paul, Minn., 41,498; Wheeling, W. Va., 31,266. Directories sold for $3.50: Minneapolis, Minn., 46,887; Omaha, Neb., 30,518. Directories published for $3: Providence, R. I., 104,850; Rochester, N. Y., 89,363; Columbus, O., 51, 665; Paterson, N. J., 50,887; Nashville, Tenn., 43,461; Wilmington, Del., 42,449; Covington, Ky., 29,720; Evansville, Ind., 29,280; Erie, Pa., 27,730; Galveston, Texas, 22,253; Houston, Tex., 18,646. Directories published for **$2.50:—Troy, etc., 97,058:** Albany, N. Y., 90,903; New Haven, Conn., 62,882; Cambridge, Mass., 52,740; Syracuse, N. Y., 51,791; Utica, N. Y., 33,913; Poughkeepsie, N. Y., 20,207; Binghamton, N. Y., 17,315. Among the very many Directories of small cities and towns selling for $2 are the following in this vicinity: Newburgh, 18,050; Saratoga, 10,822, and Hudson, 8,789.

A complete file of the Troy Directory for past years may be found at the bookstore of Wm. H. Young, Nos. 8 and 9 First st., and our patrons having occasion to consult them, will be made welcome.

During the season of compilation of the Directory, our office will be at 54 Hall Building.

Since our last issue the following have died among those whose names appeared in the first Troy Directory, published in 1829: Jairus Dickerman, George Fry, Clement F. LeFevre, F. V. Yvonnte, Charles S. J. Goodrich, and Elias Plum.

## SESSIONS.

The School Year is forty weeks or four quarters of ten weeks each. Commencing with the third Wednesday in September, closing with the last Wednesday in June. The only vacation is during the Christmas holidays.

The success which has attended the efforts of the Trustees of the Seminary to maintain a day school of the first-class in Troy is assured. The patronage of our citizens is generous, and the scholarship and progress of the pupils satisfactory.

The Institution has recently been more completely equipped for instruction in the physical sciences; and classes in primary branches have been arranged, which offer unusual advantages for young children.

It is confidently asserted that pupils residing at their own homes in Troy have, at the Seminary, means of advanced education equaled by only a few of the best boarding schools and colleges for young ladies in the country.

Instruction in Vocal and Instrumental Music, while not included in the regular course, can be provided for, on application, by competent local teachers.

The school thus affords to citizens of Troy unexcelled facilities for the thorough and economical education of their daughters, while surrounded by home influence and parental care.

An investigation of the merits of the school is respectfully invited.

For further information apply to, or address,

EMILY T. WILCOX, Principal, Troy, N. Y.

This Company owns the entire water-power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gate-house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the company, with land for factory building, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the locality is the cheapest in the country. It is an unfailing power, and during the past few years, while most of the water-powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson Rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

# THE J. C. HOADLEY

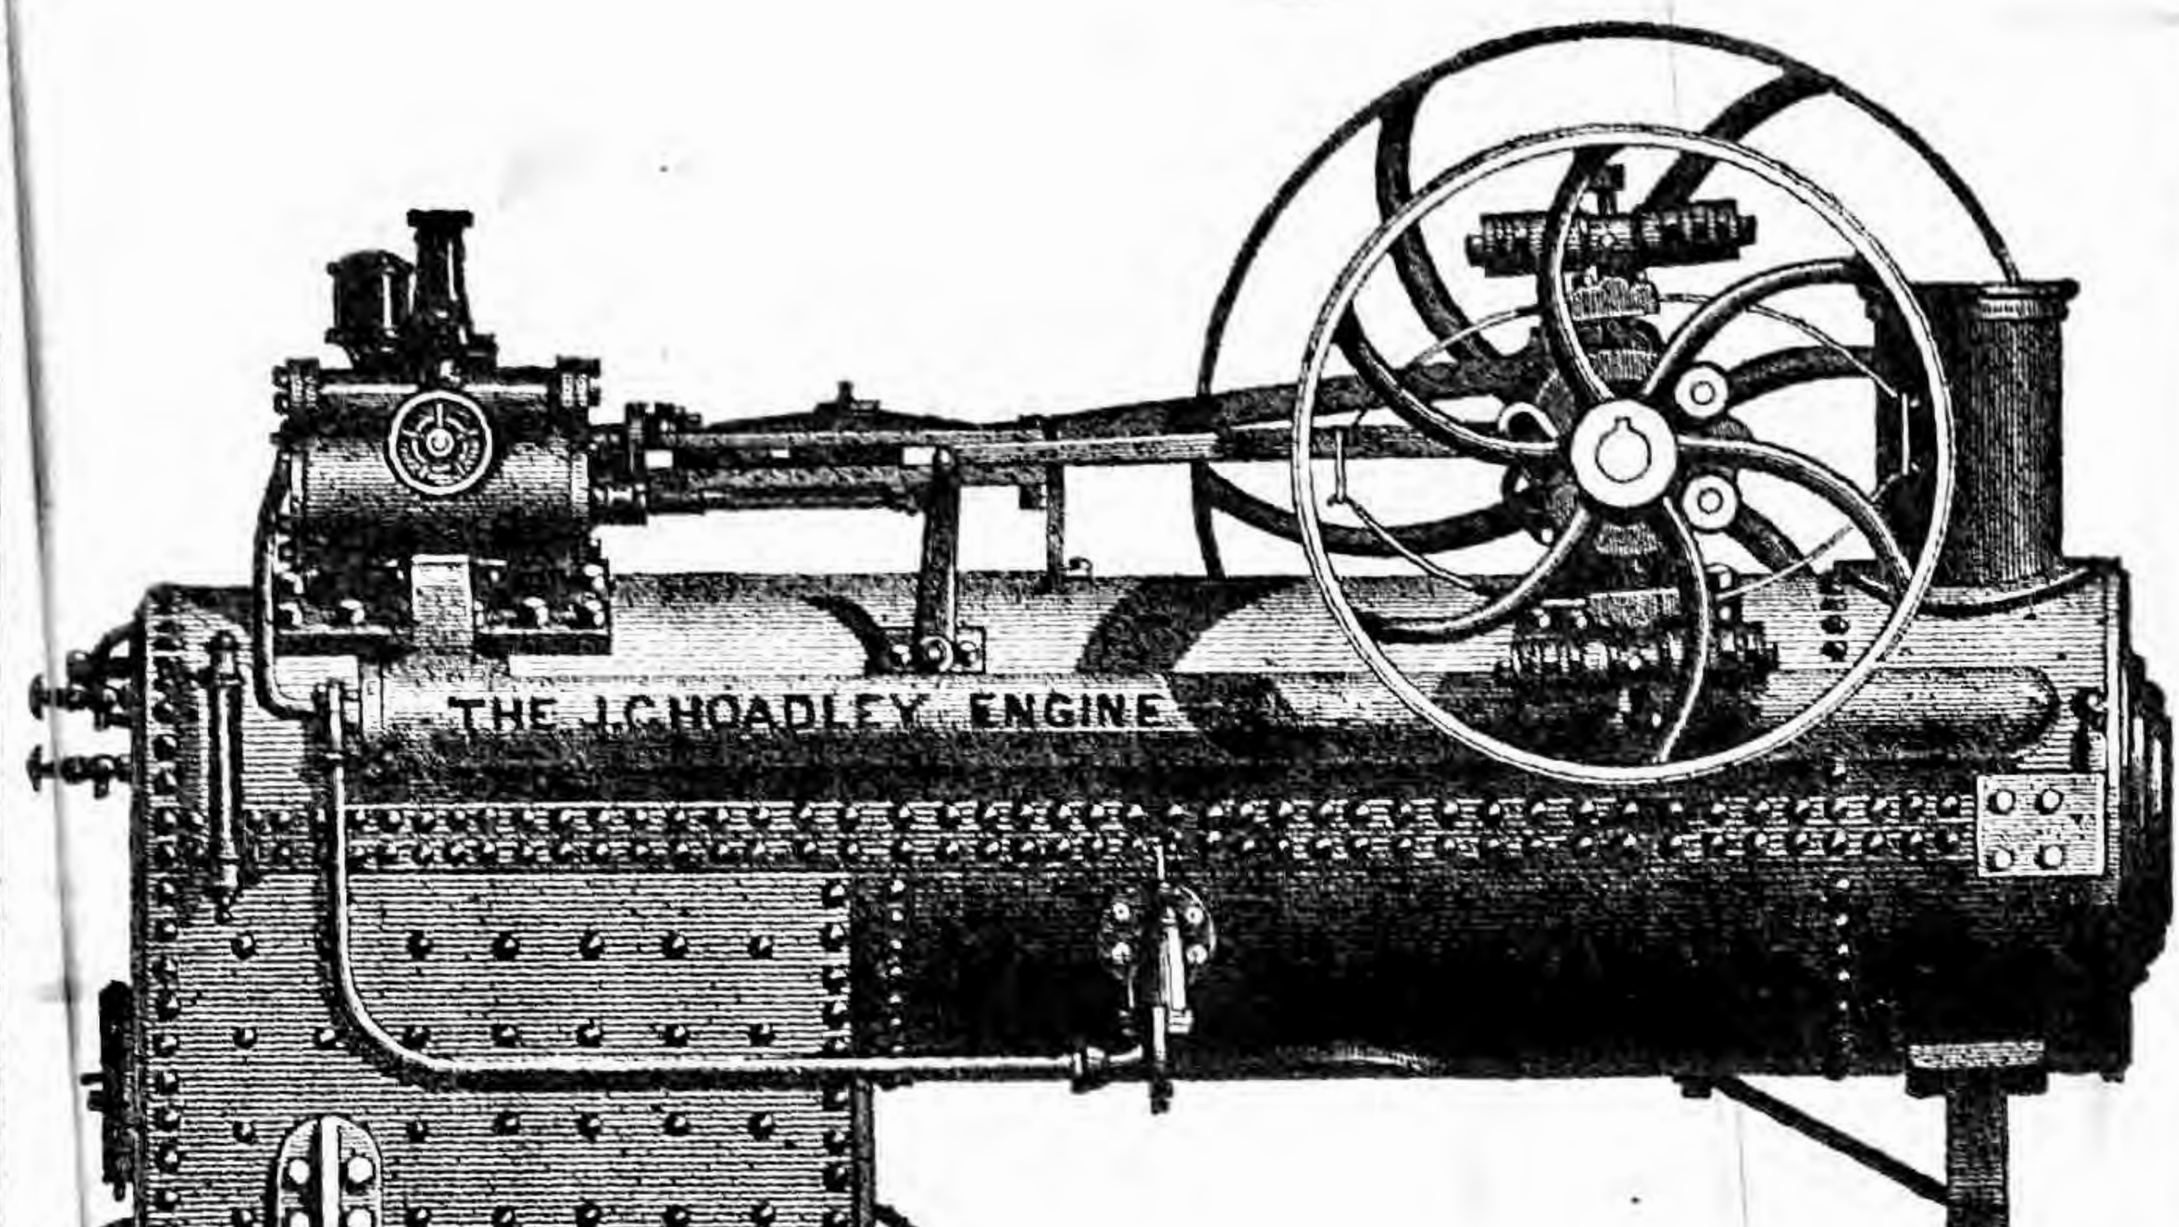
IMPROVED

# PORTABLE ENGINES.

All Sizes from **9** to **100** Horse Power.

(COVERED BY FIVE PATENTS.)

## Made only by GEO. T. McLAUTHLIN & CO.



This cut shows the unmounted Engine complete, except the Smoke Pipe, with Pump and Regulator ready for use.

These wonderfully efficient and economical variable Cut-off Portable Engines have no competitors in ECONOMY OF FUEL AND WATER, and in regulation of speed.

They are widely known and have attracted the favorable attention of many expert Steam Engineers, both at home and abroad.

At the Centennial, after most thorough and exhaustive tests, the **HOADLEY PORTABLE ENGINE** received the HIGHEST AWARD, and the highest possible approbation of the Judges. See their official report, Group No. 20,

# These Improved Hoadley Portable Engines

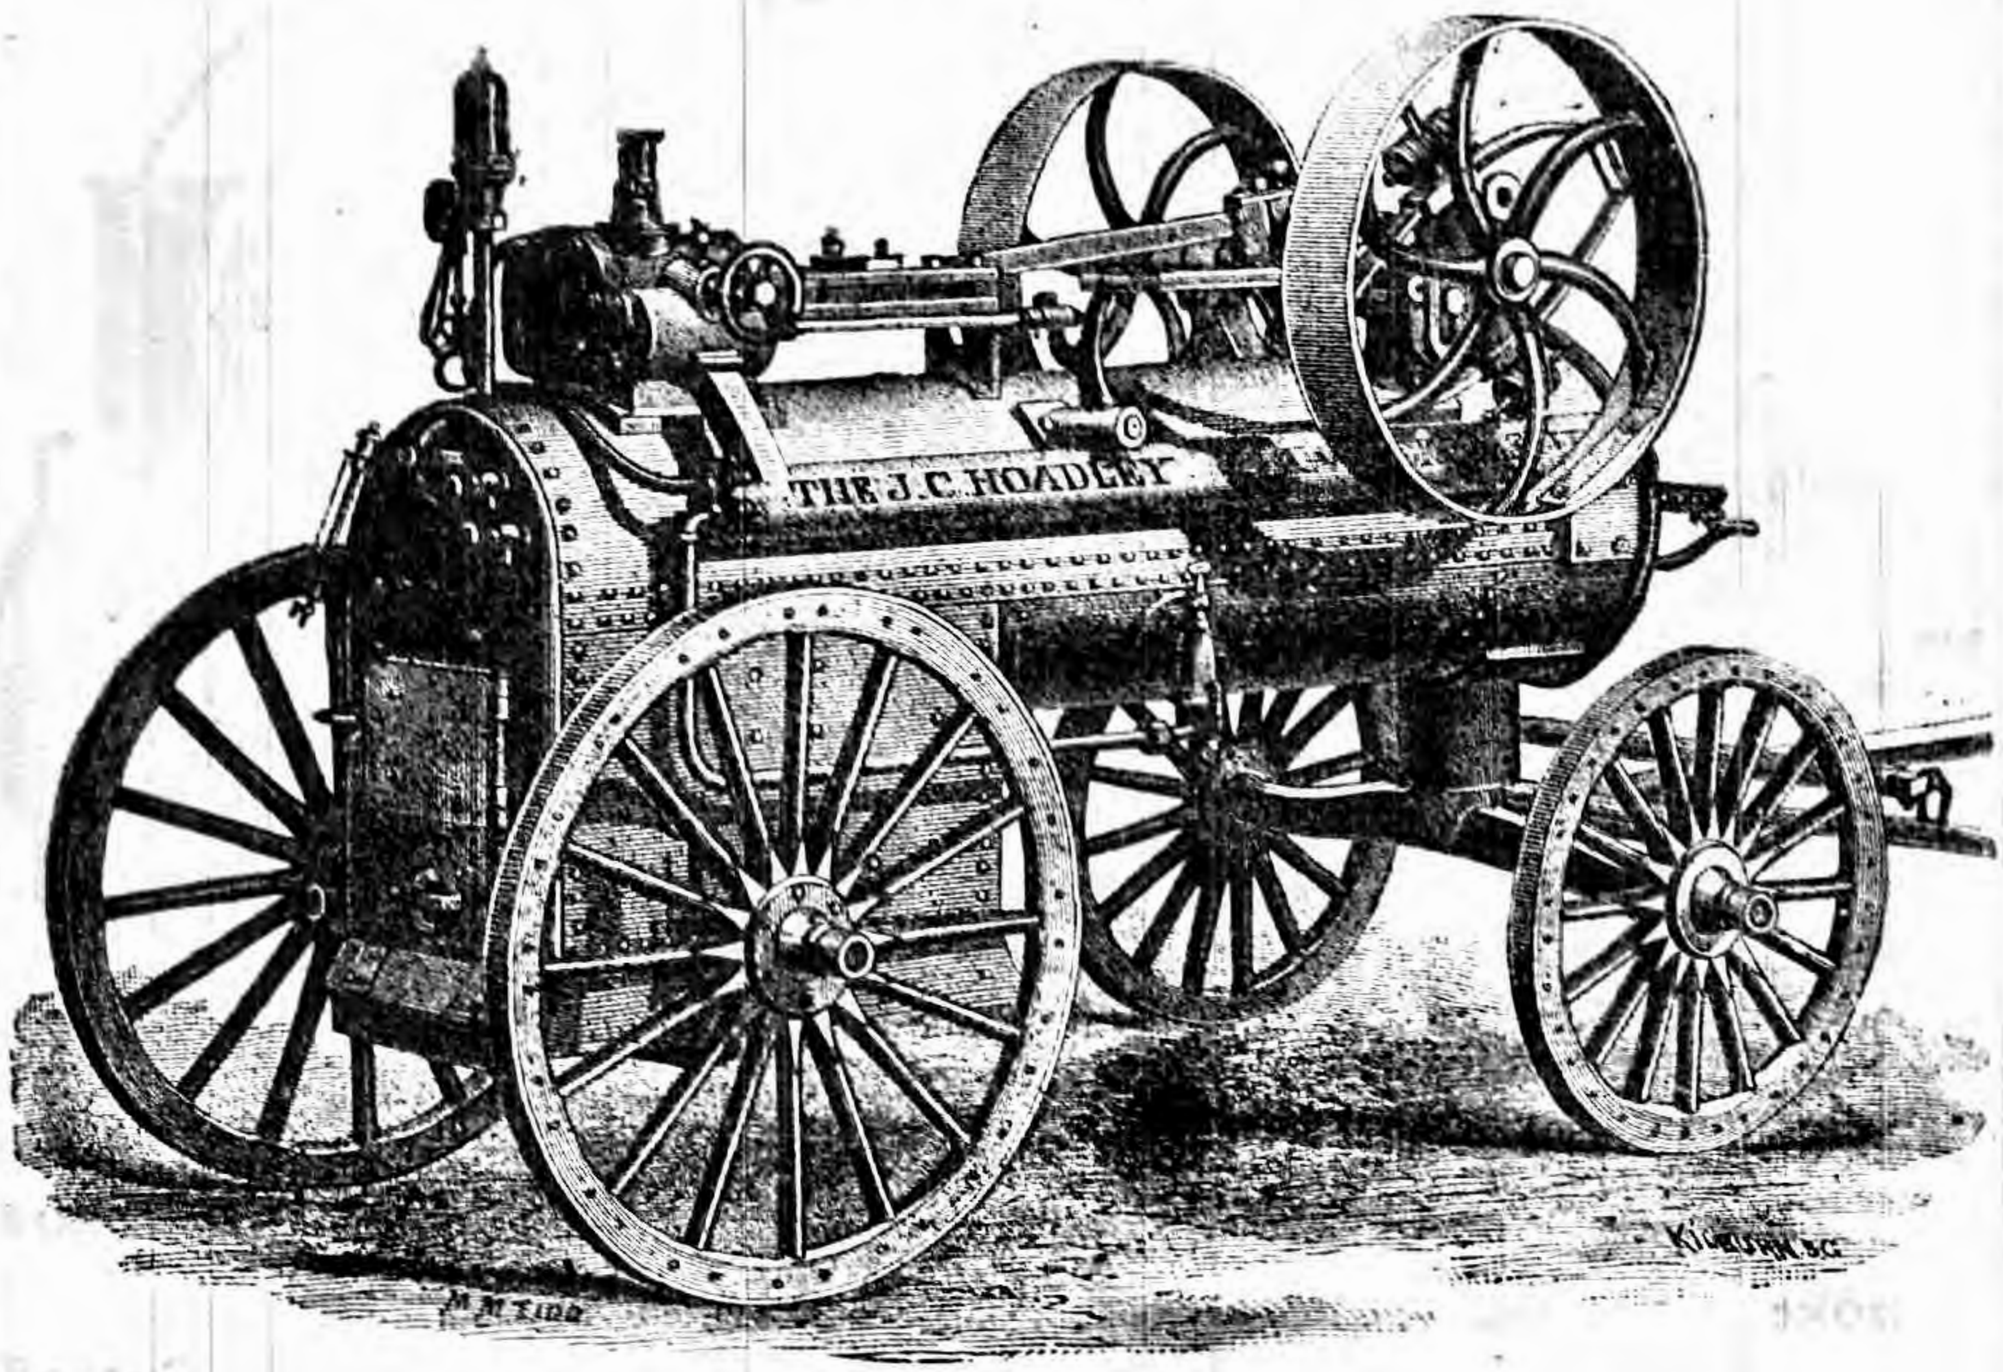
Are made with Automatic Cut-off Regulator, Balanced Valve, Steam Jacketed Cylinder and Valve Chamber, Direct Regulator Connection, &c., and require *only about one-half the boiler, fuel, steam and water* of Mr. Hoadley's former noted Standard Portable Engines. They equal in average economy the best Stationary Engines and Boilers in general use.

We apply these improvements to the Old Style Hoadley, or to any first-class, strongly made Portable Engines, and guarantee *one-third gain in power from the same boiler and fuel.*

BELOW IS A CUT SHOWING THE

# MOUNTED ENGINE COMPLETE,

EXCEPT THE SMOKE PIPE.



WE ALSO MAKE

# STATIONARY HOADLEY ENGINES

UNDER THE SAME PATENTS.

They are not excelled in economy, are exceedingly simple, and of moderate cost. Their perfection of speed renders them valuable for

# ELECTRIC LIGHTS.

# McLAUTHLIN'S

## PATENT

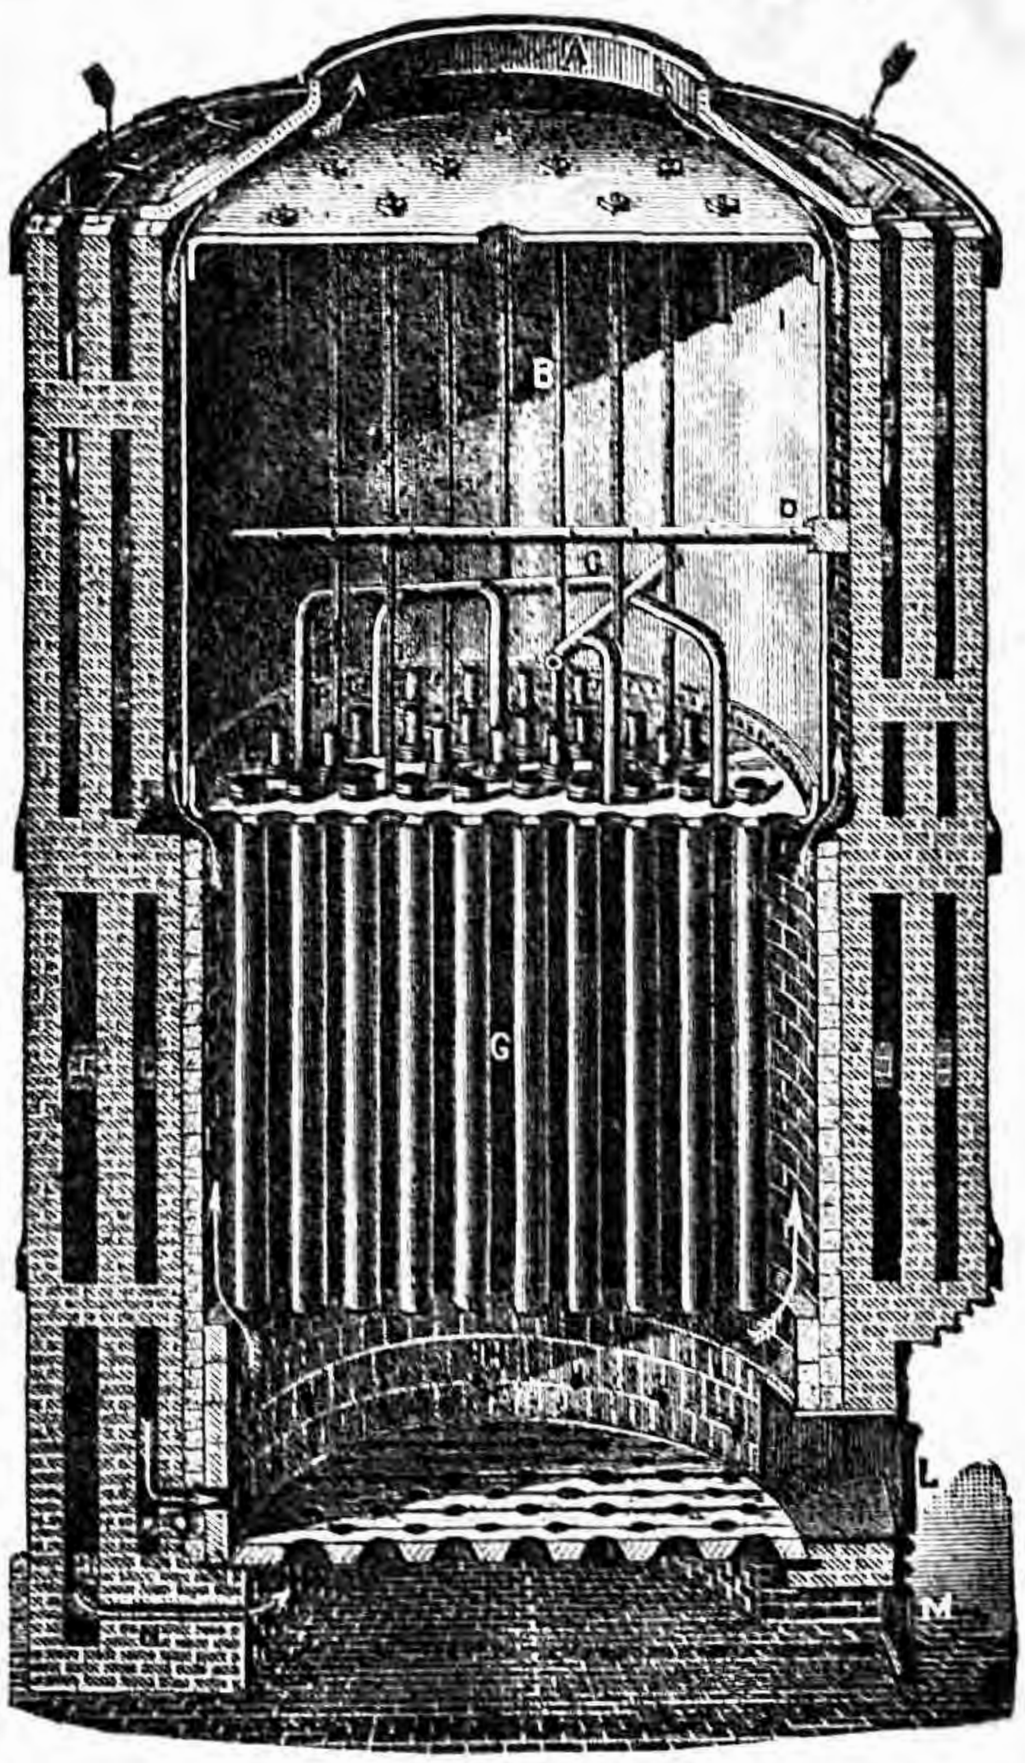
# DROP-TUBE SAFETY STEAM BOILERS,

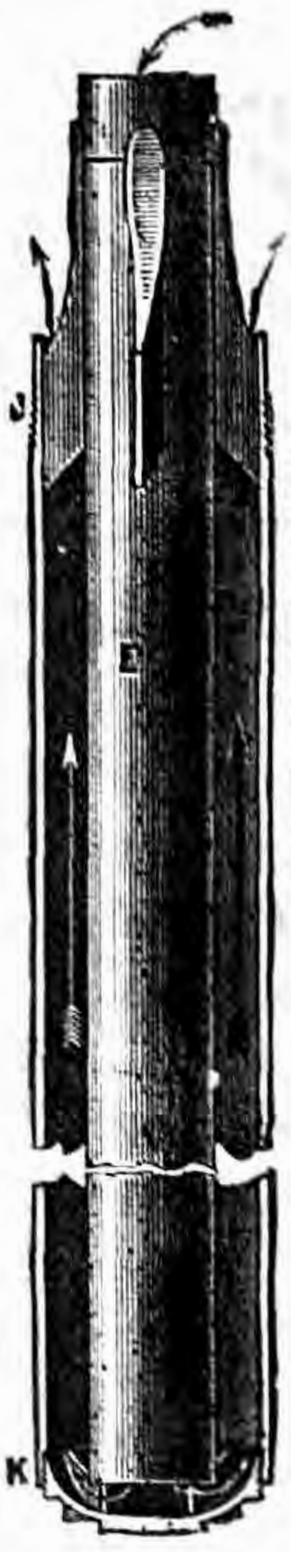
## COMBINING

Large steam and water space; perfect circulation; entire freedom from unequal expansion; ample heating surfaces; superior draft; suspension entirely within the fire chamber; protected brick work,—the supply of air passing down its air spaces, which also prevents waste of heat through it;—manifold safety blow-off,—which, combined with the enforced circulation, admits of using water that would prove dangerous in ordinary boilers;—distributive safety feed, etc., etc.

**THE LARGE CUT IS A VERTICAL SECTIONAL VIEW.**

A, central smoke flue; B, steam and water cylinder; G, water tubes projecting through tube sheet; C, manifold blow-off, drawing from surface of crown sheet; D, distributive safety feed-pipe; F, supporting rings, having lugs on which boiler rests. Ascending arrows show boiler entirely enveloped in the fire and gases. Descending arrows show supply of air through the brick work.





**THE SMALL CUT.**

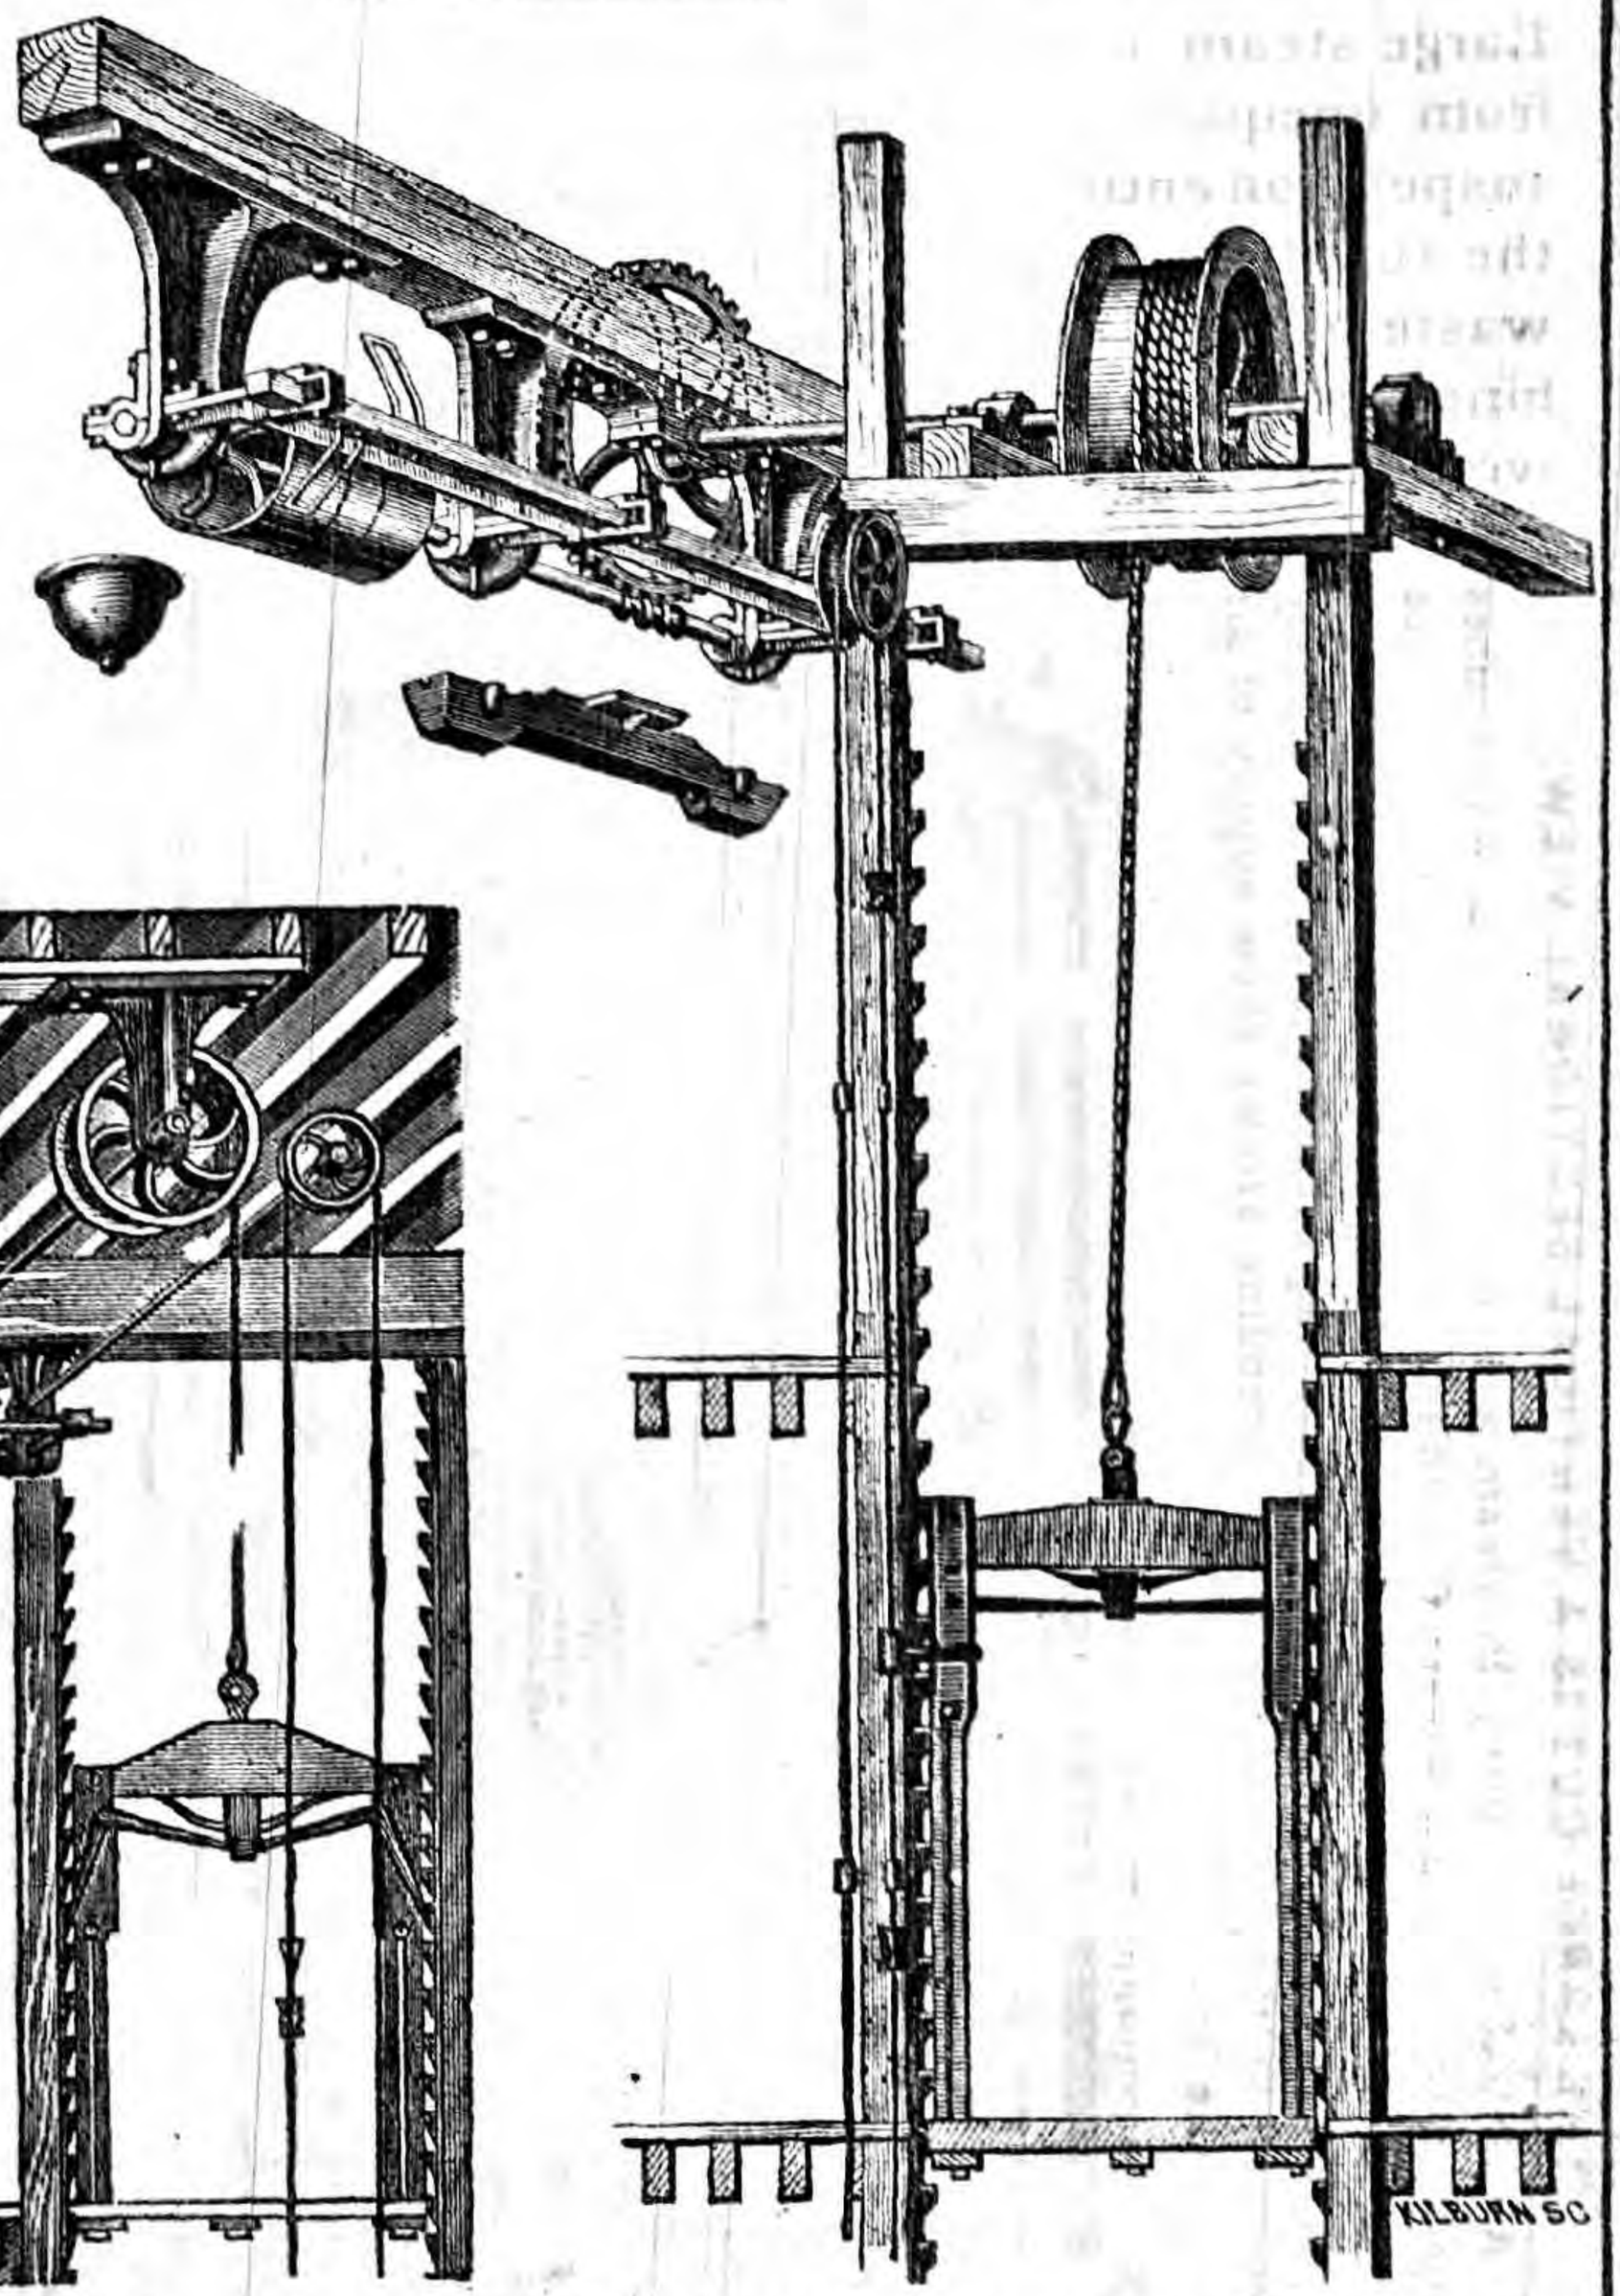
shows one of the tubes enlarged, the fire-tube J K in section. Circulating tube E rests on centering lugs on plug K. The tube guide at the top sustains itself by spring pressure, and receives tube E loosely within it.

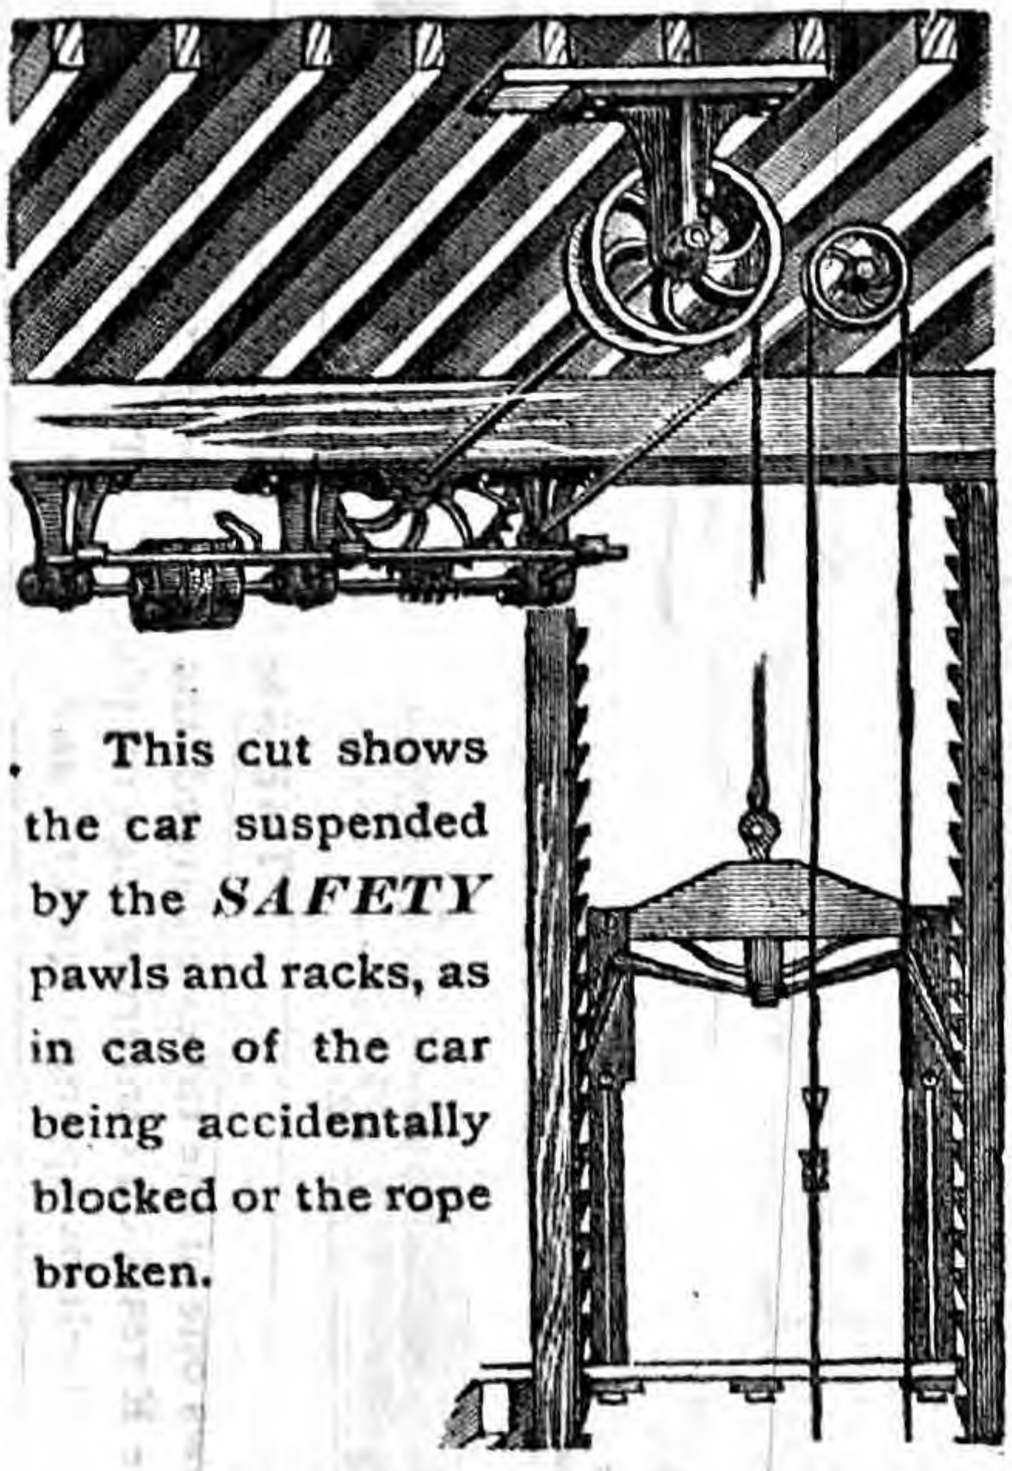
These Boilers have proved, by fourteen years use, remarkably economical and free from repairs or accident. They are made only of superior strength, materials, and workmanship, and are sold at the price of ordinary horizontal tubular boilers.

# PASSENGER, FREIGHT, CARRIAGE AND HAND

# —ELEVATORS,—

## —HOISTING WHEELS, HATCH COVERS, &c., &c.—





This cut shows the car suspended by the *SAFETY* pawls and racks, as in case of the car being accidentally blocked or the rope broken.

Our Freight Elevators are without a competitor in price for an Elevator of their class. They are very extensively adopted, and *none* are operated with better satisfaction.

The cuts are imperfect, but give a general idea as put up on the simplest and most durable plan.

We get them up in styles to meet all locations and uses.

# TEST TURBINE WATER-WHEELS.

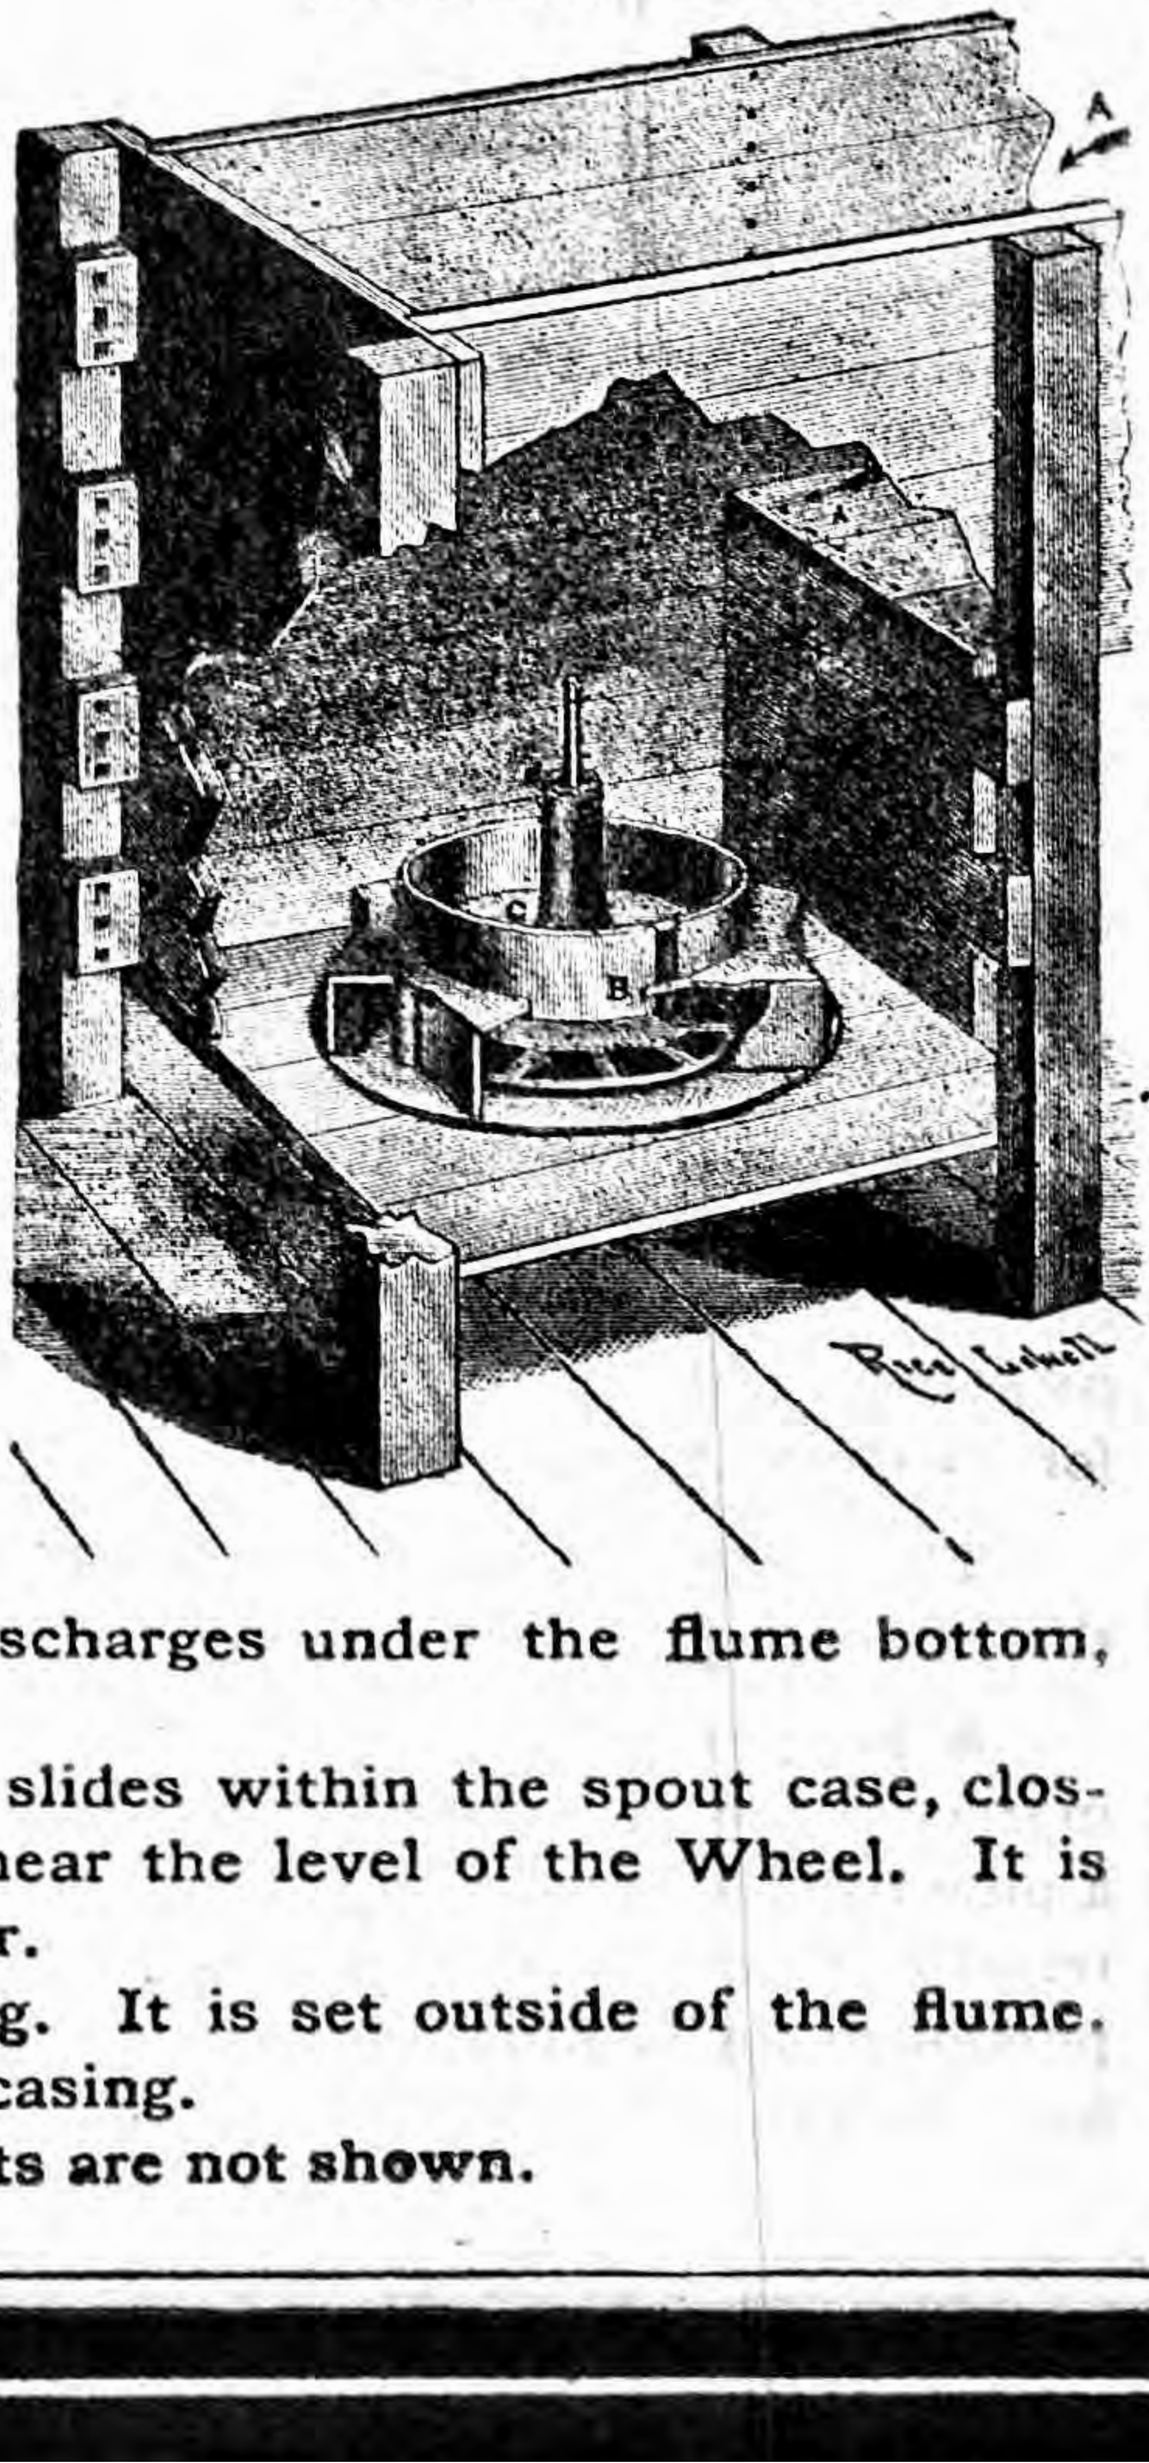
## PRICES LARGELY REDUCED.

Over thirty years' experience in the Water-Wheel business, and a series of 5300 **of the most accurate comparative test experiments on record,** have led to the production of our

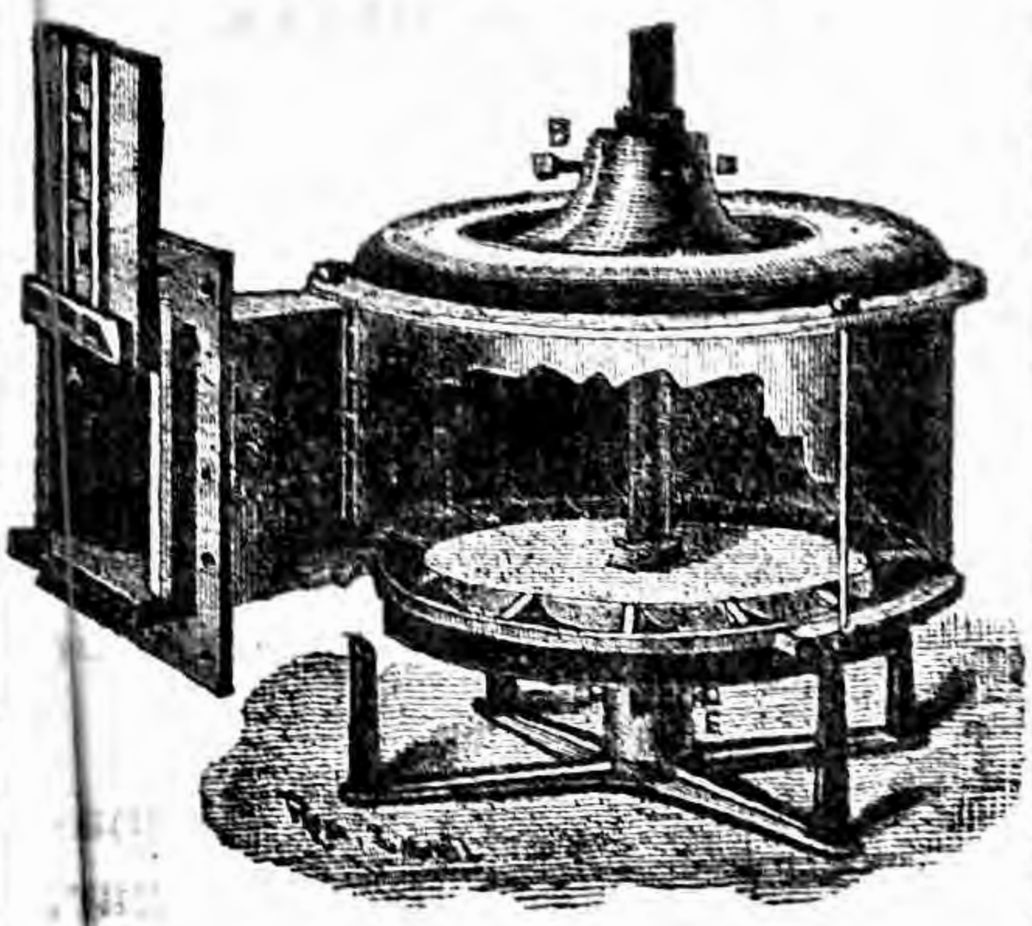
## No. 1 and No. 2 TEST TURBINES.

*We claim that for a term of years, working under the conditions that mills are generally subject to, the* **No. 1** *has not its equal in average economy of water, and freedom from care, interruptions and delays; and that the* **No. 2** *is not excelled by* any Wheels *that can be furnished and put in at so little cost.*

***No. 1 Test Turbine.***



***No. 2 Test Turbine.***



**In the No. 1, the water discharges under the flume bottom, on which the Wheel is set.**

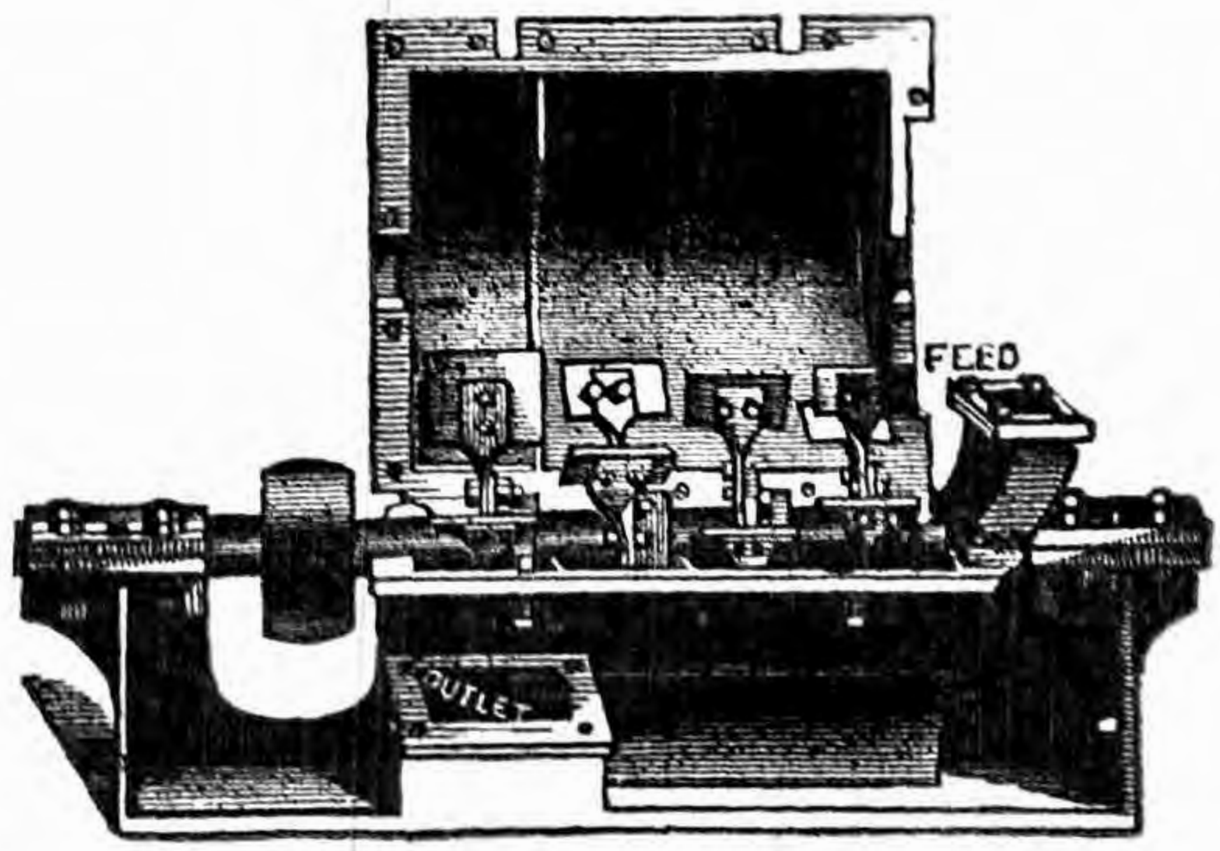
**The gate B C is open. It slides within the spout case, closing upon a seat at its rim, near the level of the Wheel. It is proof against leakage and wear.**

**The No. 2 is in iron casing. It is set outside of the flume. We also fit these with wood casing.**

**The upper parts of the shafts are not shown.**

## THE PATENT

# —MAGIC PULVERIZER—



**Has proved by years of *PRACTICAL WORK* its superiority for pulverizing FRIABLE AND SEMI-FRIABLE MATERIALS. No dressing or sharpening is required, and the wearing parts are easily replaced.**

It consists of a Horizontal Cylindrical Case, with a rapidly revolving shaft carrying STEEL PADDLES in the first part, and EXHAUST FANS in the second, the combined operation of which creates concussive action of the grains upon each other in millions and in numberless repetitions, the material only escaping the combating vortices by the exhaust current, which is regulated for the fineness required.

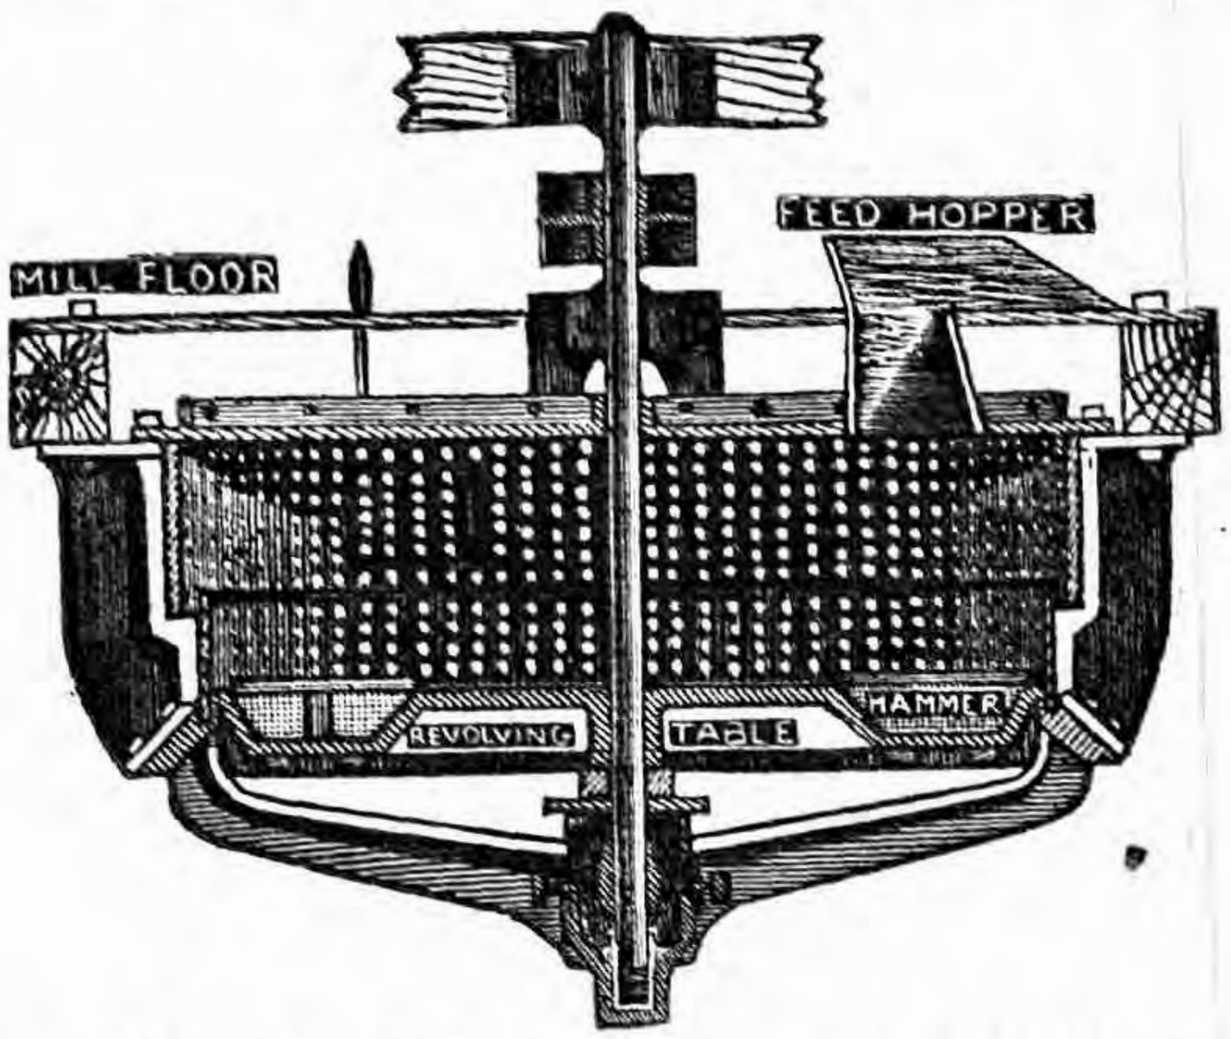
It has been successfully used on a wonderful variety of materials, including **Ores, Minerals, Mica, Glue, Bones, Asbestos, Sugar, Grains, Dried Roots, Paints, Chemicals, Fertilizers, etc.,** and for GRANULATING corn, meal, glue, etc. It has also proved valuable for TRITURATING LIQUIDS.

The engraving shows a small machine thrown open to show the internal parts.

A hopper to be placed at the "FEED" aperture conducts the material into the machine. The "OUTLET" is to be connected by a pipe to a large settling chamber, into which the pulverized material is discharged. The diaphragm seen within the casing is proportioned for **medium work; for coarse it is made narrower, and for fine, wider.**

THE PATENT

# MAGIC CRUSHER



Is adapted to all **FRIABLE** and most **SEMI-FRIABLE** substances, as proved by years of practical use. It consists of a Revolving Table, with Steel Hammers attached, placed upon a vertical shaft, and surrounded by a perforated casing, within which it revolves and through which the crushed material is discharged. The grade is controlled by the size of the perforations in the casing.

**The Material thrown in receives at the rate of 5000 Shattering or Rending Blows per Minute, of a force due to a velocity of two to three miles per minute.**

No Crusher known works with less power or less wear and repairs. It crushes easily **FIVE TONS AN HOUR**, and **COSTS LESS** than any other of similar capacity.

The Cut is a vertical sectional view.

## THE ONLY MORNING PAPER IN THE CITY

***Covering the entire field to the North and East of Troy.***

---

**The TELEGRAM, like all Morning Papers, is read by the People just before they want to buy, and hence gives advertisers an opportunity of reaching purchasers at a time that no paper issued at any other hour of the day can.**

**Advertising in a Morning Paper always pays. The TELEGRAM meets all of the in-coming trains, and is read by the out of town purchasers as they are approaching the city, thus making an advertisement in this paper of the greatest value, and one that will repay the advertiser.**

# THE TROY NORTHERN BUDGET

Published every Sunday morning, having a circulation three times that of any paper published in this City, gives Advertisers more Circulation for a given amount of money than any other paper published in Troy, Albany or New York State, outside of New York City.

It is the largest paper in the City and County, being the same size as the large New York Dailies. It covers a field reached by no other single paper. It is read by all classes and by thousands who read no other paper. It is read more thoroughly than any other paper, for Sunday is the great reading day. People have more leisure to read advertisements on Sunday than on any other day, consequently with its large Circulation it presents features to advertisers that no other paper in this vicinity can.

It is the paper above all others in this vicinity in which to Advertise "Wants," "To Let," "For Sale," and similar advertisements.

Advertising Rates for Local page (5th page), one inch each time, $1.75; for inside of paper, 2d, 3d, 6th and 7th pages, per inch, one year, $20; six months, $12; three months, $8; one month, $4. Advertisements for outside of paper, 1st, 4th and 8th pages, per inch, one year, $30; six months, $18; three months, $12; one month, $6. Advertisements inserted in all editions.

# FRANKLIN SCOTT,

## Attorney at Law and Counselor in Patent Causes,

SOLICITOR OF AMERICAN AND FOREIGN

# PATENTS,

**NORTH BENNINGTON, VT.**

After an experience in patent matters extending over a period of twenty years, I offer my services to inventors in Troy and vicinity, and I confidently believe that my facilities for the transaction of patent business in the United States Courts and in American and Foreign Patent Offices are unsurpassed by any Patent Agency in this locality.

Acting as the Associate Attorney in the United States for the Patent Agency of WM. P. THOMPSON & CO., London and Liverpool, one of the most reliable establishments of the kind in England, I am enabled to execute on this side of the water all papers necessary to obtain British patents, so that inventors seeking English patents may know, before their British applications are lodged, in what shape their inventions have been presented. The general custom is to turn the whole case over to the English Agents, who handle the matter as they please, without consultation with the inventor — a practice often prejudicial to the inventor's interest.

Having a complete set of English and United States Patent Reports covering a period from 1617 to date, as well as a good selection of legal and scientific patent authorities, I am able to furnish information of the highest value to the inventor and the litigant. No charge made for preliminary consultation.

## CHARGES.

The customary charge of $5 is made for preliminary searches on inventions.

Fee for obtaining United States Patent ranges from $30 upwards, according to the complexity of the case.

Where applications are made after a preliminary search, the fee for search will be applied on the regular attorney's fee.

Re-issues, extensions, copyrights, rejected cases and caveats prosecuted on reasonable terms.

Cost of English Patents from $175 upwards. This covers English Government fees and all other expenses.

**WM. H. YOUNG, Troy, N. Y., will furnish applicants with information concerning this Agency.**

## TO DOCTORS AND THE PUBLIC.

Years of experience in the regular practice of medicine has convinced me of the necessity of a well-conducted Lying-in Home, for the protection of unfortunate females during Pregnancy and Confinement from the reproach and censure of a cruel, relentless, and unsympathizing public; to escape which criminal abortion, with all its dire consequences, or suicide, is not infrequently resorted to, death itself being preferred to exposure.

All wishing to avail themselves of such an institution will not be disappointed in patronizing me.

I have superior accommodations, everything first-class, easy, and homelike; beautiful, healthful retreat in the environs of the City of Fort Wayne, Indiana.

Board from $8 to $25 per week, according to length of time they stay, and rooms occupied.

P. S.—When desired, references will be given to physicians who have sent patients to my care. Address
